5. **Prizing:** Prizes will be awarded at the completion of the contest for the Top entries. Ties for any of the contestants placing in the top 10 will be ruled under the aggregate process. The aggregate process states that if any contestant tie(s) for a placing, in any contest for any bracket we offer, then the total of all those tied placing’s will be added and then divided by the number of tied

contestants and then dispersed equally among those tied. For example: 3 contestants tie for 4th spot. The 4th, 5th and 6th spots would be totaled and then divided by 3 and this would then be the pay out to each of those 3 contestants.

Total Prize Pool: \$500,000.00 US Dollars*.

Grand Prize/1st place:	\$200,000.00 USD (or 55.6% of prize pool)
2 nd Place:	\$80,000.00 USD (or 21.9% of prize pool)
3 rd Place:	\$40,000.00 USD (or 10.9% of prize pool)
4 th Place:	\$20,000.00 USD (or 5.5% of prize pool)
5 th Place:	\$10,000.00 USD (or 2.74% of prize pool)
6 th Place:	\$ 5,000.00 USD (or 1.37% of prize pool)
7 th – 10 th Place:	\$ 1,900.00 USD (or 1.99% of total prize pool divided by 4)

Grand Prize Award: In the event of a tie for the Grand Prize at the completion of the contest, the Grand Prize and any subsequent top 10 prizes that would be awarded to the tied grand prize winners will be totaled and divided evenly among the tied winners. Each Winner would then have an equal share of the Grand prize and any Top 10 prize they would qualify for.

Top 10 Prize Awards: In the event of a tie for any of the top 10 prizes, please refer to the sequence and explanation of the Grand prize award above. The same procedure will be followed. If the tied list goes beyond the 25 contestants awarded a prize, we will include those entries beyond the 10 and include them in the formula for pay out. No extra allocation in prize winning will be added to the calculation only contestants who qualify.

Example: If 5 entries finish tied for 2nd place, each of the 5 would get an equal share of the 2nd, 3rd, 4th, 5th, and 6th spot combined.
